Qty	Shape	Mat size	# of cutouts	Border Width	Size of ea. Cutout Vert.	Horz.	Location of ea. cutout	Mat Color	Fillet Color

When determining border width, take into account the frame rabbet. Typical frame and shadowbox rabbets can be up to 3/8". Borders will be cut to the width requested. A minimum border of 1" is required. For multiple cutouts, a charge of $7.50 per cutout will be added to the total window mat price. Be sure to indicate if mat will be hung vertically or horizontally and which are the vertical and horizontal measurements for each cutout. If fillet mouldings are requested, please refer to fillet moulding widths as listed in the catalog to make proper allowances to cutout dimensions. To ensure accuracy, a map or rough drawing of the finished mat must accompany this order form.
